

Energy KWL

Name: _____

Period: _____

In this unit, we will be learning about many different energy resources. Many of them are listed below. If you've never heard of one or many of them, that's okay. We will be learning about them in this unit.

- Fossil Fuels (Oil, Natural Gas, Coal)
- Solar
- Water/Hydroelectric
- Wind
- Garbage
- Nuclear
- Geothermal
- Biomass Fuels
- Hydrogen

1. In the space provided, write down everything you know about each type of energy source.

2. Now, write what you would like to learn about one, several, or all of the types of energy resources listed above.

3. Choose four sources of energy from above that most interest you (meaning you'd like to learn more about it) and then rank them in order of interest.

- #1. _____
- #2. _____
- #3. _____
- #4. _____
